

gButterfly Finger Puppet

Butterfly and nature lovers are sure to love this fun and easy craft.

Want to make some butterflies of your own? Simply gather the following supplies: green cardstock, a pencil, twigs, scissors, glue stick, flower petals and leaves.

First, arrange the leaves on green cardstock, in sort of a butterfly shape. Trace around your leaves and cut your butterfly out of the cardstock. Fold the butterfly in half. Cut 2 lines into the center, creating a loop to place your finger inside.

Then, using a glue stick, glue your leaves onto the butterfly shape cutout. Attach some twigs to the center of your butterfly.

Next...and this is where it gets fun, using flower petals, begin to decorate the butterfly's wings. Again, secure them into place using your glue stick.

Place your butterfly onto your finger...

and have fun making it flutter around.

So next time you are looking for a fun craft to do with the kids, try making one of these flower and leaf butterflies.
